## SKILLS

### LANGUAGES

- Java (J2E, Android), JavaScript, XML, SQL, PL/SQL, COBOL

### WEB

- Angular, React, VueJS, Typescript, Redux, JavaScript, SCSS, REST
- NodeJS, Tomcat, WampServer

### MIDDLEWARES

- Spring, Spring boot, Spring batch, Struts2, Hibernate, Play Framework, Oracle Tuxedo

### SOFTWARES

- IntelliJ, Git, Docker, Maven, Gitlab, Jenkins, Vault, XLDploy, VS Code

### DEVELOPMENT METHODS

- AGILE (SCRUM), V-Model, TDD, BDD

### DATABASES

- MariaDB, PostgreSQL, MySQL, SQL Server, Oracle, DB2
- Redis, MongoDB

### ENVIRONMENTS

- Windows, Linux (Ubuntu, Debian, CentOS)

### CERTIFICATIONS

- Spring / Spring boot

### SPOKEN LANGUAGES

- 

Reading	Writing	Speaking
<div></div>	<div></div>	<div></div>
- 

Reading	Writing	Speaking
<div></div>	<div></div>	<div></div>

TOEIC : 860 / 990

### TECHNOLOGY WATCH

- Portfolio with ReactJS
- Friend's portfolio with Gatsby
- Mobile application with Java Android
- Mobile application with React Native

### PERSONAL INTERESTS

# Fullstack Software Engineer

6 years of experience and specialized in Web Development

*Dynamic, polyvalent and autonomous*

## WORK EXPERIENCES

**atexo**

DEPUIS FEV. 22

Software publisher for public actors

*SUB – Subventions solutions and individual aids*

- > Migrating a web application from JSF/Seam to VueJS/Spring
- > Development, continuous integration, database and code refactoring
- > Evolving and corrective maintenance

Technologies : Java 14, VueJS, Nuxt, Vuetify, Spring core, Hibernate, Gitlab

**zenika**

SEPT. 19 – DEC. 21

Threefold-expertise in consulting, realization and training.

- > Development, continuous integration, database and code refactoring
  - > Plugging APIs to an API Gateway (OpenId Connect)
  - > Evolving and corrective maintenance of existing web applications and APIs
- Technologies : Java 11, Docker, Clean code, Vault, XL Deploy, Maven, Jenkins, Git

*DPCH – Optimization of the absenteeism of companies' employee*

- > Development of landing pages and a new NodeJS API from scratch
- Technologies : Angular 11, NodeJS, RxJs, SCSS

*SIGS – Access management of commercialized services at Malakoff Humanis*

- > Development of a new API from scratch
- Technologies : Spring boot, Spring batch, React, Redux, Play Framework, Sbt

**KLEE GROUP**

OCT. 16 – OCT. 18

Software publishing & implementing IT systems

- > Analysis and conception (UML, Enterprise Architect)
- > Front-end and back-end development, continuous integration
- > Deployment on multiple environments (Linux via WinScp / Putty, Tomcat)

*SIGDCA – Management of automotive radars (SCRUM)*

- > Development of a notification center (Redis)
  - > PostGIS to support geographic objects in PostgreSQL's database
  - > Setting up of multiple deployment environments (Linux with Fish and Bash)
- Technologies : Java 8 / JEE, JSP, OpenLayers 2 & 3, PostgreSQL, Redis, Maven, Jenkins, Sonar, Git

*VIVACITE 2 – Social housing management*

- > Web app with geographical features (Project from scratch)
- Technologies : Java, HTML5, CSS, JS, JQuery, OpenLayers 2, JSP, XML, SQL, SVN

**CRÉDIT AGRICOLE**  
CONSUMER FINANCE

SEPT. 13 – SEPT. 16

Financing, brokerage, and insurance solutions

*FluxPart – Development of a web interface calling mainframe services (Web services)*

- > Analysis, conception and writing of functional and technical specifications
- > Web development, backend services and continuous integration
- > Use of the Oracle TUXEDO middleware

Technologies : Java 7 / JEE, COBOL, Hibernate, DB2, Maven, Jenkins, Sonar, SVN

## EDUCATION

**efrei**  
PARIS SUD  
Ingénieurs en mouvement

2016 – MASTER'S DEGREE IN IT

- > Option : Software engineering

**UNIVERSITÉ**  
PARIS DESCARTES

2013 – BACHELOR'S DEGREE IN IT

- > Option : COBOL Development
